

5. Sew a row of stitching around the bottom of the cat, 6mm from the edge, and a similar row around the cat base as guides for when you come to attach the base.
6. Fill the top of the cat with stuffing and then position the bag of sand so that it sits solidly at the bottom of the cat, covered by the unstuffed fabric. Place some stuffing around the sides of the sandbag until the cat is stuffed firmly and is balancing nicely.
7. Pin and then tack the base into the bottom of the cat, folding the seams over on the sewn lines as you go so that the raw edges are inside. Stitch in place by hand using a double strand of sewing thread, closing up the cat. 

### Suppliers

**Fabrics and threads:** widely available from needlework shops and departments.

**Washed sand:** from hardware stores and some toy stores.

 This design is taken from *Embroidered Home* by Kelly Fletcher, published by Kyle Books, price £18.99 (not available from the EG Bookshop).
